And What Have You

By BOB CRAIG

It seems that a basic conflict in philosophies has emerged over our junior high athletic program. On the one hand we have those who feel that it should be a part of the overall program and one that builds a better high school program and at the same time benefit all of the junior high students who are interested.

On the other hand we seem to have those who feel that the junior high program should have only one goal and that is to win.

Well it seems that up until Monday evening we had the best of two worlds as the junior high coaches had their program where everyone taking part in the program were a part of it and were getting to play and at the same time we were winning.

But then Monday it happened, we lost two games and quite frankly all H--- broke loose.

It seems we have those who feel that if the coaches had played only their best five boys or six girls we would have won and maybe we would have. And if this had been a varsity game we could have gone along with their thinking because in high school winning has to be all important—but not in junior high.

In junior high you should be developing all of the youth you can so that by the time they are in high school you have the best possible ones to choose from. With young kids developing at all different ages, some moving, some dropping out and others just not willing to pay the price, how can you tell who will be playing when they are seniors?

We understand that one of the arguments used is that we never have done it this way. Well in the 11 or so years we have been covering and backing sports in Hamlin we have not seen many teams come along that set the woods on fire either. Maybe it is time to change something.

As long as we can remember we have been in contention for the junior high crown in football, basketball and track but how many years have we been in contention for the crown in these same sports in high school? Something is wrong somewhere.

Because this is sports you may feel that it is not important enough to get very upset, but it involves a number of dedicated men whose very jobs hinge on this program because of the pressure of wanting to win. It also involves the development of a lot of fine youngsters in both junior high and high school.

We hire dedicated and trained men to coach our youngsters and to build a winning program, and if they don't win we put enough pressure on them to get rid of them. But is it fair if we give them the job but do not give them the tools and the freedom with which to do their job?

We don't think so.

We have seen a number of good coaches come and go here during the past 11 years but have not really seen very much change during that time. It just might be that we are putting the pressure on the wrong people.

And if you think this is too much fuss being made over a sports program, we would tend to go along with you—except we don't make the rules, the fans do. And as we said before, it affects a lot of people, because whether we like it or not the pressure is there.

We just wish that as many people, from our school board on down, would get as concerned about what kind of job the math, English or other departments in school were doing. But this just is not human nature.

So if you are a parent or fan and believe that we are on the right direction without our current junior high program, please let the coaches and the administration know.

Carlton Implement To Host 'Farming Frontiers '71' Here

'Farming Frontiers '71', a film program devoted to the business of farming, will be presented Tuesday, Jan. 26, at the high school cafeteria beginning at 7:30. It was announced today by Carlton Implement Co. area John Deere dealer.

The program includes "Furrow-on-Film" subjects which show the latest research and developments in farming. These films show farming techniques being developed which could affect the way area farmers farm today and five years from now. Also included will be motion pictures showing new John Deere Tractors and farm equipment being introduced for 1971.

A new John Deere power mower will be given away as a door prize, Weldon Carlton said. He also said a light meal will be served.

Jerry Adkison Named to Head Local Scout Troop

Seven adults and seven boys attended the Monday night meeting to get the Scouting program underway here.

Jerry Adkison was elected Scoutmaster. Plans were made to plan activities for a Scouting program that would involve several assistants.

Adults attending the meeting were Adkison, John Holtz, J. O. Murphree, Jimmy Ratliff, Bill Davis, Gean Witt and Joe Andrews.

During the discussion, it was noted that the Troop here has good equipment, a good place to meet at the Hut, and is well financed. All that is lacking at this time is the interest of the boys. The adults present indicated their willingness to work out a schedule that would not conflict with other activities of the boys, even to having meetings several times a week with adult workers alternating as supervisors at the meetings.

All boys interested in becoming a Scout should contact Scoutmaster Adkison or others named above.

Newberry, high school principal.

Faculty members from high school were Mrs. Frank Codington, Mrs. J. B. Jayroe, Mr. Barney Popmoe, and Coach Bobby King. Mrs. S. C. Ferguson represented the junior high faculty.

Superintendent C. F. Cook had asked Mrs. Everett Gibson, supervisor of Jones County Schools, to coordinate the workshop. Mrs. Gibson was assisted in the workshop by Mr. Bill Merkle, Director of Drug Education, Region XIV, Education Service Center, Abilene. Mr. Merkle directed and trained the Task Force in the laboratory technique process, which encourages group participation in determining and developing a plan, or a curriculum, for action to accomplish purposes. This lab technique will be used by members of the Task Force as they lead the students and teachers in formulating the drug education curriculum for Hamlin Schools.

The 61st Texas Legislature passed House Bill 467 which makes it mandatory for drug abuse information to be taught in grades five through 12 beginning in the fall school term of 1971. Each school system must have a tentative curriculum plan completed by May, 1971.

Mr. Cook stated, "To be successful the drug educational program requires total involvement of students, administrators, teachers, and citizens of our city. The young people are our best helpers in planning what information is needed, and how that information can be presented effectively."

The Task Force will be assisted in their work by resource persons in Hamlin. Dr. M. L. Smith will clarify medical questions on the use and misuse of drugs. Mrs. O. H. (Marolyn) Weaver, pharmacist, Reynolds Drug, will furnish data on the history of drugs and their pharmaceutical aspects. Hamlin's Chief of Police, Bryan Wasson, will be the resource informant on laws pertaining to crime and drug abuse.

Another workshop led by the Task Force will be held in the near future, and all students and teachers in grades seven through 12 will have an opportunity to participate. The resource persons will be available to answer questions at the next meeting. Also, the names of students heading the Task Force will be listed in our next report, Mrs. Gibson said.

Badgers Remain On Top With Overtime Win Over Pipers

The Pied Pipers dropped into a tie with Stamford for second place following their overtime loss to the first place Merkel Badgers here Tuesday evening, 44-42. A near mid-court shot by the Badgers at the end of regulation time put the contest into overtime with the Badgers outscoring the Pipers, 7-5, in the final three minutes.

The Pipers are now 3-1 in district play with Haskell left to play on the first half of the round robin schedule. Merkel is all alone at the top with a 4-0 record. The Hamlin teams travel to Haskell Friday to complete the

first round of play and began the second round of action the following Friday.

Shelton Marshall was the top scorer for the evening as he led the Pipers with 20 points. Alan Arnwine was high for Merkel with 18.

A strong fourth quarter rally by the Pipers gave them a 52-41 victory over the host Tigers as they outscored them

22-10 in the final period after trailing by one point at the end of three periods. Shelton Marshall poured in 22 points for the Pipers to lead the scoring.

The Piperettes dropped a 42-41 contest to the league leading Anson girls as they overcame a cold first period to come within one point as the buzzer sounded. Debbie Hardway lead the scoring with 21 points.

The local junior varsity had a high scoring second half as they ran over the Anson junior varsity, 63-43.

Trucker Dies In Accident Near Radium

A Floydada trucker, Clifford Dale Helms, 47, was killed when his truck hit a cow and a bull South of Hamlin near Radium early Monday.

Mr. Helms was killed when his grain-loaded trailer-truck collided with a large Charolais cow and a large bull on U. S. 83 shortly after midnight.

Highway Patrolman Donald Van Zandt said the truck lost control and overturned into a field, pinning Helms' body inside for more than two hours. Three wreckers were needed to remove the driver from the wreckage.

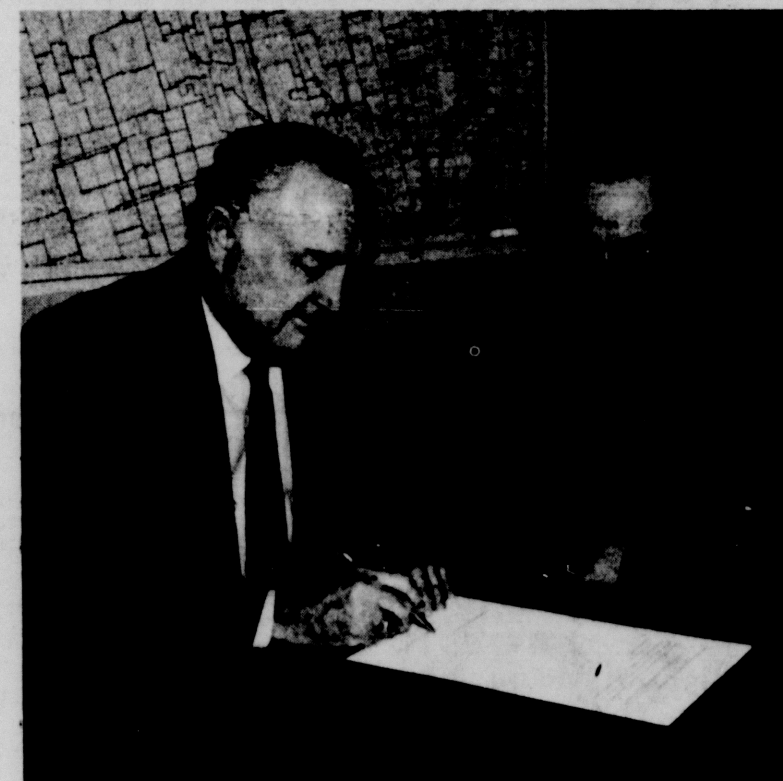

He was pronounced dead at the scene by Justice of the Peace Ernest M. Sprayberry Sr. of Anson.

The truck, carrying a load of hybrid grain seek in sacks, was heavily damaged. Workmen were busy until almost dawn Monday, clearing the wreck scene and loading grain into another truck.

Helms' body was taken to Lawrence Funeral Home in Anson.

Van Zandt said that he had received a call about 10 p.m. Sunday about the cattle being loose and he checked and the cattle had been put back in the field. It was unknown how the cattle got out at the time of the accident.

"3.76 IN '76 WEEK PROCLAMATION--Jones County Judge Leon Thurman signs a proclamation designating the week of Jan. 25 to 29 as "3.76 in '76 Week" in Jones County as Birger Haterius looks on. Haterius is chairman of Jones County Extension Program Building Committee.

County Judge Sets '3.76 In '76 Week' In Jones County

Jones County Judge Leon Thurman signed a proclamation this week declaring the week of Jan. 25 to 29 as "3.76 in '76 Week" in Jones County. This is part of a state wide program of the Texas Agricultural Extension Service to increase farm income over the state of Texas by 1976.

The proclamation states in part: "Whereas, it is recognized that all citizens of this county have a vital stake and a legitimate self-interest in the general well-being of the farmers and ranchers who provide the great abundance and variety of food and fiber of highest quality which we all enjoy, and

"Whereas, '3.76 in '76' is a well-conceived program designed by the Texas Agricultural Extension Service, with the endorsement and active support of agricultural agencies, organizations, and individual leaders, to help the agricultural industry achieve its full potential through an intensification of efforts by producers; agribusinesses, and professional agriculturists to

bring about an increase in income to Texas farmers and ranchers of \$1 billion by the end of crop year 1976, and

"Whereas, the achievement of an increase of \$1,636,000 in agricultural income by the end of crop year 1976 will improve the net profit and competitive position of Jones County farmers and ranchers and make highly significant contributions to the future economy of the county."

Cash income to farmers and ranchers in Jones County should be more than \$13,000,000 by the end of 1976, according to Kirby Clayton, Jones County Agricultural Agent.

This will be an increase of \$1,636,000 from the 1968-69 figure, with cotton, cattle, grain sorghum and wheat contributing to a large part of the gain. The projections are based on studies of the Texas Agricultural Extension Service and are part of the "3.76 in '76" program, a statewide project to increase Texas agricultural cash receipts by more than one billion dollars.

Total cash receipts from all agricultural enterprises in Jones County are presently estimated at \$12,122,000, says Clayton. The most important one are cotton, livestock and wheat. They are expected to account for about 90 percent of the projected 1976 totals.

The project will be aided in its production efforts by the Rolling Plains Economic Program. Extension specialists will hold conferences in Jones County at various times throughout the year to discuss improved production of livestock and crops in an effort to help reach the established goal.

The projections are based on estimates from the County Program Building Committee; after separate predictions were made by Extension economists. The figures were published for each county, extension district and economic area in Texas.

"Jones County producers will have access to production information and techniques that can help spell success for the Texas goal of \$3.76 billion in 1976", says Clayton.

The Carpenter's FRIEND

To build... one must have plans, and plans give exact measurements. The carpenter who makes careful measurements finds that the work is made easier. Careful measuring prevents waste... waste of time and materials. Therefore the measuring device is truly a friend to the carpenter.

The church wants to be your friend, and help you to a easier and better way of life. The Bible clearly gives us a way to measure life. Through many centuries man has found no better rules than those given in the Bible.

Attend church and receive the friendly welcome that awaits you.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

TV Color-cast Planned to Help Promote West Texas Rehab

A six and one-half hour television color-cast on January 30th will kick-off "Rehab '71", a year around effort of public education and fund raising for the West Texas Rehabilitation Center, announced Bobby Sayles, President of the West Texas Rehabilitation Center Board of Directors.

Tentative budget for the Center, Sayles pointed out, is \$426,000, most of which will come from contributions for West Texas Rehabilitation Center supporters throughout Texas, Oklahoma and New Mexico.

"The public education portion of 'Rehab '71' is actually already underway," Sayles said, adding that speakers, articles and various programs carrying the story of the Center and its needs have already begun action. While "Rehab '71" is a year-long project, the most concentrated effort of the Center will take place during the months of February and March," Sayles said.

The all-star television presentation will start unrolling at 7:15 p.m., at Moody Coliseum on the Abilene Christian College campus in Abilene. The program, following a format similar to that of the "Tonight Show" will have Cactus Pryor, Texas television personality, as emcee. The show will be carried in color over stations KRBC in Abilene, KSWO in Lawton, Oklahoma, KMID in Midland, and KACB in San Angelo.

During the telecast, viewers will be asked to call their local banks and make a pledge by a monthly bank draft or call the program directly through a special number. Arrangements have been made for a toll free number to be announced during the program, to be available for those wishing to make a contribution. Volunteers will be manning phones throughout the show.

Personalities already committed for the spectacular include Rex Allen, Rosemary Clooney, Slim Pickens, Arthur Duncan of the Lawrence Welk Show, Rex Allen, Jr., character actor Pedro Gonzalez-Gonzalez, the Men of the West, and a 16-piece house band. Performers scheduled to appear include The Hilltoppers, The Citizens, The Apollos, The Heritage Singers, The H-SU Cowboy Band, and Chris, Chris and Lee.

Other celebrities scheduled to visit and be interviewed include Congressman Omar Burleson, Darrell Royal and staff and players of the University of Texas football team, Gene Stallings and Texas A&M football players, Dale Evans and Texas Tech football players, cartoonist Ace Reid, and a wide array of state medical, educational and sports leaders from throughout the state.

Sayles pointed out that individuals wishing to make contributions prior to the telecast could mail them directly to the West Texas Rehabilitation Center, 4601 Hartford, Abilene, Texas, 79605. Tickets for the telecast will be on sale throughout the area at \$2.00 each.

Rep. Calhoun Files Bill for Fieldwide Oil Unitization

Representative Frank Calhoun of Abilene introduced today a bill providing for fieldwide unitization of oil producing leases for the purpose of applying the most advanced oil production techniques to increase ultimate oil recovery.

The bill provides, that if 75% of the operators and 75% of the royalty owners voluntarily agree to a plan of unitization and the Texas Railroad Commission finds, after public hearing, that the plan is fair and equitable to all owners, the Commission can order that the field be unitized.

Calhoun stated that because of declining oil reserves in Texas it was imperative that every effort must be made to increase recovery from our present fields, and such legislation is absolutely necessary to permit application of increased recovery programs.

Calhoun pointed out that Texas, the largest oil producing state in the nation, is one of the few remaining without the benefits of such legislation.

He is a former president of the Chamber of Commerce, Lions Club, Little League, West Texas Press Association, and a member of many other organizations and committees. He is a Sunday School teacher and usher at the Slaton First Baptist Church.

Letter to Editor

The question was asked in The Hamlin Herald last week, "Why fire crackers at Christmas." I can not answer the question completely, except to say that our fathers, our grandfathers and even our great-grandfathers enjoyed them, and we also enjoyed them when we were younger, so why deny our children of fire works at Christmas as long as they are not destructive with them?

But I have a question that has never been answered to my satisfaction, why do adults who drink indulge more in cocktails and whiskey at Christmas than any other time of the year?

After all it is our Lord's birthday we are celebrating, and I'm sure that it does not make him happy for people to drink anything intoxicating at anytime of the year.

WELFARE CRISIS GROWING — Lieutenant Governor Barnes warned Senate budget writers that emergency funding is necessary to prevent some welfare allocations from running out altogether.

He said money for aid to families with dependent children and medical assistance might be exhausted by May or June unless the Legislature provides early supplements.

Barnes urged special attention to welfare problems. Welfare officials confirmed a reduction in AFDC is likely "not later than March" if no additional money is provided. A reduction in "Medicaid"

would result in "losing the whole program," they said, due to strict federal matching requirements.

Welfare Department is asking a \$34.9 million emergency appropriation to maintain the current level of aid to the needy, drawing AFDC and regular medical benefits.

Barnes is ordering a check to determine if local expenditures for medical welfare could be channeled through the state treasury and thus attract additional matching federal aid on a two-to-one ratio. He thinks the procedure may take a substantial "savings" in state money.

SHORT SNORTS

Governor's advisory committee recommended creation of a permanent commission on physical fitness.

One hundred and six rice farmers in Chambers, Liberty and Jefferson Counties carried their appeal to the Texas Water Rights Commission on an irrigation water rate increase by the Trinity River Authority.

An Environmental Education Conference is set here for February 17 to support legislation to protect the environment.

Last year Texas exported 111,083 goats, 75,820 sheep,

10,916 swine and 6,352 cattle, reports Agriculture Commissioner John C. White. Forest Hill (Tarrant County) is applying for a state bank charter.

"What a FIRE! — and no marshmallows"

The cost of building increases an average of 3% per year. A home built five years ago for \$20,000 would cost over \$23,000 to replace today. Fire insurance to full "replacement" value is available from Turner Insurance Agency.

Our sympathy to the family of M. L. (Doc) Howard, our former rural mail carrier, who passed away last week.

Our sympathy also goes to the Dozier family in the death of Betty's brother, Brown Blair in California.

Bro. Trice of South Plains filled the pulpit of the Baptist Church Sunday.

Our sympathy to the family of Arthur Washington, who died recently in Hamlin. "Preacher" will be remembered for a long time in Sylvester.

The R. M. Babbs drove to Byers Sunday afternoon and visited with the H. L. Babbs. Then they drove to Wichita Falls and visited in the Carl Jackson and Henry Edwards homes.

Mr. and Mrs. Frank Turner visited relatives here this weekend.

Lea Dickerson is improving and hopes to be home real soon.

Please don't forget that you only have a few days to register if you haven't and

Neinda Philosopher Takes Up for Man Who Breaks World's Record for Riding Ferris Wheel

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One apparently is not much for traveling, his letter this week indicates.

Dear editor: A neighbor of mine came over yesterday and handed me a newspaper and said, "Here, read this item. Silliest thing I ever heard of."

The item reported a man had just won the world's record for riding a ferris wheel non-stop. He rode the thing for 20 days, 16 hours and 30 minutes, beating a man who had ridden one for 16 days.

I got to thinking about this and at first I agreed, it does sound ridiculous. Puts me in mind of the man who was proud of the fact he had breakfast in New York, flew to Los Angeles for lunch, caught another plane and was back in New York for supper.

That seems to me like going a long way to eat three meals, when I can get three any day without going more 50 yards, and not even that far if I don't feel like it.

I understand the airlines are now using planes that hold 350 people and will fly you from New York to London in four hours and show you two movies on the way over. If you don't want to sit still you can walk around, go up to the upper lounge, etc., and I suppose it won't be long till they'll be equipped with a swimming pool and possibly a bowling alley and a putting green.

In fact, what they seem to be working on is a mode of travel that's fully as good as staying home.

This guy on the ferris wheel, he may be ahead of his time. If the only difference between traveling and staying at

home is the motion, a ferris wheel in their backyard would sure help a lot of people from cluttering up the airports of the world.

Understand I'm not opposed to travel by other people, but I've noticed that a person on a round-the-world trip, if he hasn't got much sense before he starts out, isn't likely to have any more when he gets back.

Yours faithfully,
J. A.

The Conoco department operates 16 gas processing plants, two LPG underground storage facilities plus a gathering and distribution system in southeastern Louisiana. GET READY FOR A FINANCIAL SHOCK!

Problem drinkers will be involved in traffic crashes this year that can cost you and other Texans more than \$380,000,000. You will pay this bill with insurance premiums and taxes.

Who are these money-costing drivers? Most of them may be the 7% of the driving population who are problem drinkers. Abuse of alcohol through excessive drinking is a major cause of fatal traffic crashes.

Here is what you can do if you want to minimize this menace.

(1) Tell law officers and courts that you want the abusive drinker, chronic violator removed from the streets and highways until he can demonstrate that he is capable of operating a car or truck without

endangering the lives of his fellow Texans.

(2) Realize that it is best for you to refrain from driving if you drink. If you must drive after drinking, be absolutely certain that you are sober.

Contact the Governor's Traffic Safety Office, the Department of Public Safety, or the Texas Safety Association, Austin, Texas, if you want additional information about this—or any other—safety matter.

We all feel sorry for the abusive drinker who kills or is killed in traffic crashes. But what about the 93% of the driving public who do not abuse alcohol. Doesn't this majority deserve some of our sympathy?

Doesn't this majority deserve protection? We think it does.

NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

It seems that a basic conflict in philosophies has emerged over our junior high athletic program. On the one hand we have those who feel that it should be a part of the overall program and one that builds a better high school program and at the same time benefit all of the junior high students who are interested.

On the other hand we seem to have those who feel that the junior high program should have only one goal and that is to win.

Well it seems that up until Monday evening we had the best of two worlds as the junior high coaches had their program where everyone taking part in the program were a part of it and were getting to play and at the same time we were winning.

But then Monday it happened, we lost two games and quite frankly all H--- broke loose.

It seems we have those who feel that if the coaches had played only their best five boys or six girls we would have won and maybe we would have. And if this had been a varsity game we could have gone along with their thinking because in high school winning has to be all important—but not in junior high.

In junior high you should be developing all of the youth you can so that by the time they are in high school you have the best possible ones to choose from. With young kids developing at all different ages, some moving, some dropping out and others just not willing to pay the price, how can you tell who will be playing when they are seniors?

We understand that one of the arguments used is that we never have done it this way. Well in the 11 or so years we have been covering and backing sports in Hamlin we have not seen many teams come along that set the woods on fire either. Maybe it is time to change something.

As long as we can remember we have been in contention for the junior high crown in football, basketball and track but how many years have we been in contention for the crown in these same sports in high school? Something is wrong somewhere.

Because this is sports you may feel that it is not important enough to get very upset, but it involves a number of dedicated men whose very jobs hinge on this program because of the pressure of wanting to win. It also involves the development of a lot of fine youngsters in both junior high and high school.

We hire dedicated and trained men to coach our youngsters and to build a winning program, and if they don't win we put enough pressure on them to get rid of them. But is it fair if we give them the job but do not give them the tools and the freedom with which to do their job?

We don't think so.

We have seen a number of good coaches come and go here during the past 11 years but have not really seen very much change during that time. It just might be that we are putting the pressure on the wrong people.

And if you think this is too much fuss being made over a sports program, we would tend to go along with you—except we don't make the rules, the fans do. And as we said before, it affects a lot of people, because whether we like it or not the pressure is there.

We just wish that as many people, from our school board on down, would get as concerned about what kind of job the math, English or other departments in school were doing. But this just is not human nature.

So if you are a parent or fan and believe that we are on the right direction without our current junior high program, please let the coaches and the administration know.

Task Force Starts Work On Drug Education Program

The first meeting of the Hamlin School Task Force for the planning of a drug education program was held in the high school cafeteria, Friday morning. Twenty-five high school students and eight junior high students were on the Task Force.

The administration was represented by Mr. B. V.

Newberry, high school principal.

Faculty members from high school were Mrs. Frank Codington, Mrs. J. B. Jayroe, Mr. Barney Popcoe, and Coach Bobby King. Mrs. S. C. Ferguson represented the junior high faculty.

Superintendent C. F. Cook had asked Mrs. Everett Gibson, supervisor of Jones County Schools, to coordinate the workshop. Mrs. Gibson was assisted in the workshop by Mr. Bill Merkle, Director of Drug Education, Region XIV, Education Service Center, Abilene. Mr. Merkle directed and trained the Task Force in the laboratory technique process, which encourages group participation in determining and developing a plan, or a curriculum, for action to accomplish purposes. This lab technique will be used by members of the Task Force as they lead the students and teachers in formulating the drug education curriculum for Hamlin Schools.

The 61st Texas Legislature passed House Bill 467 which makes it mandatory for drug abuse information to be taught in grades five through 12 beginning in the fall school term of 1971. Each school system must have a tentative curriculum plan completed by May, 1971.

Mr. Cook stated, "To be successful the drug education program requires total involvement of students, administrators, teachers, and citizens of our city. The young people are our best helpers in planning what information is needed, and how that information can be presented effectively."

The Task Force will be assisted in their work by resource persons in Hamlin. Dr. M. L. Smith will clarify medical questions on the use and misuse of drugs. Mrs. O. H. (Marolyn) Weaver, pharmacist, Reynolds Drug, will furnish data on the history of drugs and their pharmaceutical aspects. Hamlin's Chief of Police, Bryan Wasson, will be the resource informant on laws pertaining to crime and drug abuse.

Another workshop lead by the Task Force will be held in the near future, and all students and teachers in grades seven through 12 will have an opportunity to participate. The resource persons will be available to answer questions at the next meeting. Also, the names of students heading the Task Force will be listed in our next report, Mrs. Gibson said.

Carlton Implement To Host 'Farming Frontiers '71' Here

"Farming Frontiers '71", a film program devoted to the business of farming, will be presented Tuesday, Jan. 26, at the high school cafeteria beginning at 7:30. It was announced today by Carlton Implement Co. area John Deere dealer.

The program includes "Furrow-on-Film" subjects which show the latest research and developments in farming. These films show farming techniques being developed which could affect the way area farmers farm today and five years from now. Also included will be motion pictures showing new John Deere Tractors and farm equipment being introduced for 1971.

A new John Deere power mower will be given away as a door prize, Weldon Carlton said. He also said a light meal will be served.

Jerry Adkison Named to Head Local Scout Troop

Seven adults and seven boys attended the Monday night meeting to get the Scouting program underway here.

Jerry Adkison was elected Scoutmaster. Plans were made to plan activities for a Scouting program that would involve several assistants. Adults attending the meeting were Adkison, John Holtz, J. O. Murphree, Jimmy Ratliff, Bill Davis, Gean Witt and Joe Andrews.

During the discussion, it was noted that the Troop here has good equipment, a good place to meet at the Hut, and is well financed. All that is lacking at this time is the interest of the boys. The adults present indicated their willingness to work out a schedule that would not conflict with other activities of the boys, even to having meetings several times a week with adult workers alternating as supervisors at the meetings.

All boys interested in becoming a Scout should contact Scoutmaster Adkison or others named above.

Cub Scouts Hold Pine Wood Derby Tuesday Evening

A father and son project by the Cub Scouts was climaxed at a pack meeting Tuesday night with a Pine Wood Derby in the Hamlin Primary Cafeteria.

The boys raced cars that they and their fathers had made from kits. The top winner from each den then raced for the first three places.

Overall winners were James Beasley, first; Neal Baker, second and Greg Mann, third.

Winners in each den were: Den 1 — 1. Neal Baker 2. Mark Caffey 3. Sammy Benningfield; Den 2 — 1. James Beasley 2. Don Pearce 3. Carl Pyron; Den 3 — 1. Greg Mann 2. Carl Shearer 3. Terry Bailey.

Cubmaster Phil Mann presided and presented ribbons to the winners.

The boys raced on a special track built by Beach Smith.

Youth Group Sets Dance Here Jan. 30

The Hamlin Youth Activities Association has changed the date for the dance to be held at the Hamlin Jaycee Community Building. The event will be held Jan. 30 beginning at 8:30 p.m. with Variety Show as the band.

Badgers Remain On Top With Overtime Win Over Pipers

The Pied Pipers dropped into a tie with Stamford for second place following their overtime loss to the first place Merkel Badgers here Tuesday evening, 44-42. A near mid-court shot by the Badgers at the end of regulation time put the contest into overtime with the Badgers outscoring the Pipers, 7-5, in the final three minutes.

The Pipers are now 3-1 in district play with Haskell left to play on the first half of the round robin schedule. Merkel is all alone at the top with a 4-0 record. The Hamlin teams travel to Haskell Friday to complete the

first round of play and began the second round of action the following Friday.

Shelton Marshall was the top scorer for the evening as he led the Pipers with 20 points. Alan Arnwine was high for Merkel with 18.

The Piperettes dropped to 2-3 in district play, losing to Merkel here Tuesday, 42-32, with Debbie Hardway scoring 13 points.

The Hamlin Junior Varsity edged out Merkel, 46-43, in the opener.

A strong fourth quarter rally by the Pipers gave them a 52-41 victory over the host Tigers as they outscored them

22-10 in the final period after trailing by one point at the end of three periods. Shelton Marshall poured in 22 points for the Pipers to lead the scoring.

The Piperettes dropped a 42-41 contest to the league leading Anson girls as they overcame a cold first period to come within one point as the buzzer sounded. Debbie Hardway led the scoring with 21 points.

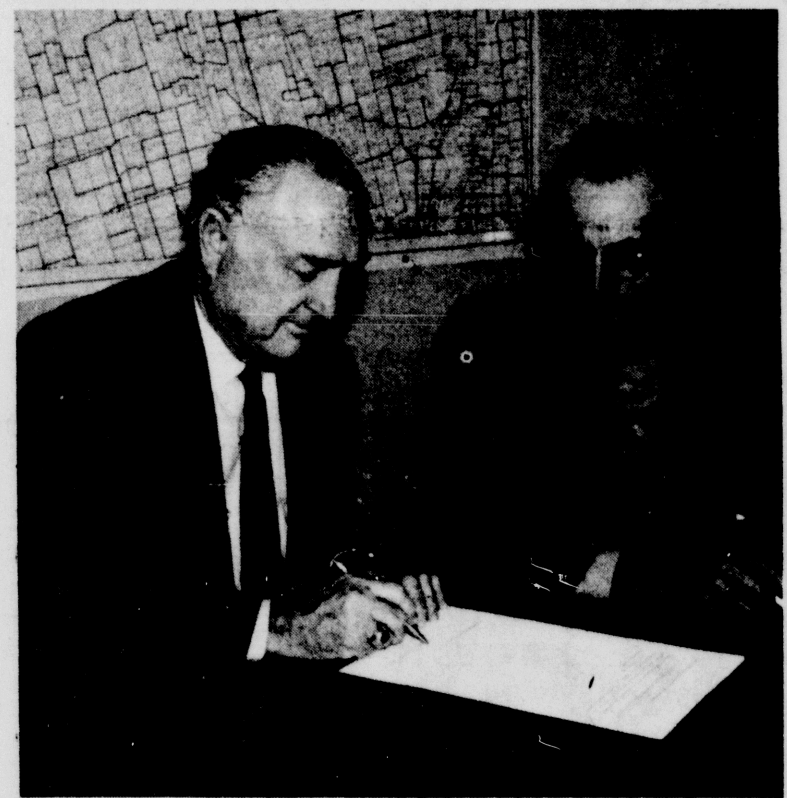

The local junior varsity had a high scoring second half as they ran over the Anson junior varsity, 63-43.

Mr. and Mrs. Mrs. James Daniel Josey are parents of a girl, Joan Dawnell, born Jan. 16 at 5:47 p.m. She weighed 2 lbs. 5 oz.

"3.76 IN '76 WEEK PROCLAMATION"—Jones County Judge Leon Thurman signs a proclamation designating the week of Jan. 25 to 29 as "3.76 in '76 Week" in Jones County as Birger Haterius looks on. Haterius is chairman of Jones County Extension Program Building Committee.

County Judge Sets '3.76 In '76 Week' In Jones County

Jones County Judge Leon Thurman signed a proclamation this week declaring the week of Jan. 25 to 29 as "3.76 in '76 Week" in Jones County. This is part of a state wide program of the Texas Agricultural Extension Service to increase farm income over the state of Texas by 1976.

The proclamation states in part: "Whereas, it is recognized that all citizens of this county have a vital stake and a legitimate self-interest in the general well-being of the farmers and ranchers who provide the great abundance and variety of food and fiber of highest quality which we all enjoy, and

"Whereas, '3.76 in '76' is a well-conceived program designed by the Texas Agricultural Extension Service, with the endorsement and active support of agricultural agencies, organizations, and individual leaders, to help the agricultural industry achieve its full potential through an intensification of efforts by producers, agribusinesses, and professional agriculturists to

bring about an increase in income to Texas farmers and ranchers of \$1 billion by the end of crop year 1976, and

"Whereas, the achievement of an increase of \$1,636,000 in agricultural income by the end of crop year 1976 will improve the net profit and competitive position of Jones County farmers and ranchers and make highly significant contributions to the future economy of the county."

Cash income to farmers and ranchers in Jones County should be more than \$13,000,000 by the end of 1976, according to Kirby Clayton, Jones County Agricultural Agent.

This will be an increase of \$1,636,000 from the 1968-69 figure, with cotton, cattle, grain sorghum and wheat contributing to a large part of the gain. The projections are based on studies of the Texas Agricultural Extension Service and are part of the "3.76 in '76" program, a statewide project to increase Texas agricultural cash receipts by more than one billion dollars.

Total cash receipts from all agricultural enterprises in Jones County are presently estimated at \$12,122,000, says Clayton. The most important one are cotton, livestock and wheat. They are expected to account for about 90 percent of the projected 1976 totals.

The county will be aided in its production efforts by the Rolling Plains Economic Program. Extension specialists will hold conferences in Jones County at various times throughout the year to discuss improved production of livestock and crops in an effort to help reach the established goal.

The projections are based on estimates from the County Program Building Committee; after separate predictions were made by Extension economists. The figures were published for each county, extension district and economic area in Texas.

"Jones County producers will have access to production information and techniques that can help spell success for the Texas goal of \$3.76 billion in 1976", says Clayton.

The Carpenter's FRIEND

To build... one must have plans, and plans give exact measurements. The carpenter who makes careful measurements finds that the work is made easier. Careful measuring prevents waste... waste of time and materials. Therefore the measuring device is truly a friend to the carpenter.

The church wants to be your friend, and help you to a easier and better way of life. The Bible clearly gives us a way to measure life. Through many centuries man has found no better rules than those given in the Bible.

Attend church and receive the friendly welcome that awaits you.

TV Color-cast Planned to Help Promote West Texas Rehab

A six and one-half hour television color-cast on January 30th will kick-off "Rehab '71", a year around effort of public education and fund raising for the West Texas Rehabilitation Center, announced Bobby Sayles, President of the West Texas Rehabilitation Center Board of Directors.

Tentative budget for the Center, Sayles pointed out, is \$426,000, most of which will come from contributions for West Texas Rehabilitation Center supporters throughout Texas, Oklahoma and New Mexico.

"The public education portion of 'Rehab '71' is actually already underway," Sayles said, adding that speakers, articles and various programs carrying the story of the Center and its needs have already begun action. While "Rehab '71" is a year-long project, the most concentrated effort of the Center will take place during the months of February and March," Sayles said.

The all-star television presentation will start unrolling at 7:15 p.m. at Moody Coliseum on the Abilene Christian College campus in Abilene. The program, following a format similar to that of the "Tonight Show" will have Cactus Pryor, Texas television personality, as emcee. The show will be carried in color over stations KRBC in Abilene, KSWO in Lawton, Oklahoma, KMID in Midland, and KACB in San Angelo.

During the telecast, viewers will be asked to call their local banks and make a pledge by a monthly bank draft or call the program directly through a special number. Arrangements have been made for a toll free number to be announced during the program, to be available for those wishing to make a contribution. Volunteers will be manning phones throughout the show.

Personalities already committed for the spectacular include Rex Allen, Rosemary Clooney, Slim Pickens, Arthur Duncan of the Lawrence Welk Show, Rex Allen, Jr., character actor Pedro Gonzalez-Gonzalez, the Men of the West, and a 16-piece house band. Performers scheduled to appear include The Hilltoppers, The Citizens, The Apollos, The Heritage Singers, The H-SU Cowboy Band, and Chris, Chris and Lee.

Rep. Calhoun Files Bill for Fieldwide Oil Unitization

Representative Frank Calhoun of Abilene introduced today a bill providing for fieldwide unitization of oil producing leases for the purpose of applying the most advanced oil production techniques to increase ultimate oil recovery.

The bill provides, that if 75% of the operators and 75% of the royalty owners voluntarily agree to a plan of unitization and the Texas Railroad Commission finds, after public hearing, that the plan is fair and equitable to all owners, the Commission can order that the field be unitized.

Calhoun stated that because of declining oil reserves in Texas it was imperative that every effort must be made to increase recovery from our present fields, and such legislation is absolutely necessary to permit application of increased recovery programs.

Calhoun pointed out that Texas, the largest oil producing state in the nation, is one of the few remaining without the benefits of such legislation.

Letter to Editor

Dear Editor:

The question was asked in The Hamlin Herald last week, "Why fire crackers at Christmas?" I can not answer the question completely, except to say that our fathers, our grandfathers and even our great-grandfathers enjoyed them, and we also enjoyed them when we were younger, so why deny our children of fire works at Christmas as long as they are not destructive with them?

But I have a question that has never been answered to my satisfaction, why do adults who drink indulge more in cocktails and whiskey at Christmas than any other time of the year?

After all it is our Lord's birthday we are celebrating, and I'm sure that it does not make him happy for people to drink anything intoxicating at anytime of the year.

WELFARE CRISIS GROWING — Lieutenant Governor Barnes warned Senate budget writers that emergency funding is necessary to prevent some welfare allocations from running out altogether.

He said money for aid to families with dependent children and medical assistance might be exhausted by May or June unless the Legislature provides early supplements.

Barnes urged special attention to welfare problems.

Welfare officials confirmed a reduction in AFDC is likely "not later than March" if no additional money is provided. A reduction in "Medicaid"

would result in "losing the whole program," they said, due to strict federal matching requirements.

Welfare Department is asking a \$34.9 million emergency appropriation to maintain the current level of aid to the needy, drawing AFDC and regular medical benefits. Barnes is ordering a check to determine if local expenditures for medical welfare could be channeled through the state treasury and thus attract additional matching federal aid on a two-to-one ratio. He thinks the procedure may take a substantial "savings" in state money.

SHORT SNORTS

Governor's advisory committee recommended creation of a permanent commission on physical fitness.

One hundred and six rice farmers in Chambers, Liberty and Jefferson Counties carried their appeal to the Texas Water Rights Commission on an irrigation water rate increase by the Trinity River Authority.

An Environmental Education Conference is set here for February 17 to support legislation to protect the environment.

Last year Texas exported 111,083 goats, 75,820 sheep,

10,916 swine and 6,352 cattle, reports Agriculture Commissioner John C. White.

Forest Hill (Tarrant County) is applying for a state bank charter.

"What a FIRE! — and no marshmallows"

The cost of building increases an average of 3% per year. A home built five years ago for \$20,000 would cost over \$23,000 to replace today. Fire insurance to full "replacement" value is available from Turner Insurance Agency.

NEWS FROM . . .

Sylvester

By MRS. R. M. BABBS

Nope, it hasn't rained yet! Mr. and Mrs. Waldo Gatewood are excited over their new granddaughter, their first. They have two grandsons.

The Raymond Kisers are driving a new L. T. D. Ford. Mrs. Barnes, sister of Mrs. Dan Kidd, came through surgery in Lubbock last week real well.

Our sympathy to the family of M. L. (Doc) Howard, our former rural mail carrier, who passed away last week.

Our sympathy also goes to the Dozier family in the death of Betty's brother, Brown Blair in California.

Bro. Trice of South Plains filled the pulpit of the Baptist Church Sunday.

Our sympathy to the family of Arthur Washington, who died recently in Hamlin. "Preacher" will be remembered for a long time in Sylvester.

The R. M. Babbs drove to Byers Sunday afternoon and visited with the H. L. Babbs. Then they drove to Wichita Falls and visited in the Carl Jackson and Henry Edwards homes.

Mr. and Mrs. Frank Turner visited relatives here this weekend.

Lea Dickerson is improving and hopes to be home real soon.

Please don't forget that you only have a few days to register if you haven't and

we do have some elections coming up.

Mr. and Mrs. Buford Brown went to Abilene and drove on to Sweetwater and left their grandson at his home Saturday afternoon.

Neinda Philosopher Takes Up for Man Who Breaks World's Record for Riding Ferris Wheel

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One apparently is not much for traveling, his letter this week indicates.

Dear editor: A neighbor of mine came over yesterday and handed me a newspaper and said, "Here, read this item. Sillyest thing I ever heard of."

The item reported a man had just won the world's record for riding a ferris wheel non-stop. He rode the thing for 20 days, 16 hours and 30 minutes, beating a man who had ridden one for 16 days.

I got to thinking about this and at first I agreed, it does sound ridiculous. Puts me in mind of the man who was proud of the fact he had breakfast in New York, flew to Los Angeles for lunch, caught another plane and was back in New York for supper.

That seems to me like going a long way to eat three meals, when I can get three any day without going more 50 yards, and not even that far if I don't feel like it.

I understand the airlines are now using planes that hold 350 people and will fly you from New York to London in four hours and show you two movies on the way over. If you don't want to sit still you can walk around, go up to the upper lounge, etc., and I suppose it won't be long till they'll be equipped with a swimming pool and possibly a bowling alley and a putting green.

In fact, what they seem to be working on is a mode of travel that's fully as good as staying home.

This guy on the ferris wheel, he may be ahead of his time. If the only difference between traveling and staying at

home is the motion, a ferris wheel in their backyard would sure help a lot of people from cluttering up the airports of the world.

Understand I'm not opposed to travel by other people, but I've noticed that a person on a round-the-world trip, if he hasn't got much sense before he starts out, isn't likely to have any more when he gets back.

Yours faithfully,
J. A.

GET READY FOR A FINANCIAL SHOCK!

Problem drinkers will be involved in traffic crashes this year that can cost you and other Texans more than \$380,000,000. You will pay this bill with insurance premiums and taxes.

Who are these money-costing drivers? Most of them may be the 7% of the driving population who are problem drinkers. Abuse of alcohol through excessive drinking is a major cause of fatal traffic crashes.

Here is what you can do if you want to minimize this menace.

(1) Tell law officers and courts that you want the abusive drinker, chronic violator removed from the streets and highways until he can demonstrate that he is capable of operating a car or truck without

endangering the lives of his fellow Texans.

(2) Realize that it is best for you to refrain from driving if you drink. If you must drive after drinking, be absolutely certain that you are sober.

Contact the Governor's Traffic Safety Office, the Department of Public Safety, or the Texas Safety Association, Austin, Texas, if you want additional information about this—or any other—safety matter.

We all feel sorry for the abusive drinker who kills or is killed in traffic crashes. But what about the 93% of the driving public who do not abuse alcohol. Doesn't this majority deserve some of our sympathy?

Doesn't this majority deserve protection? We think it does.
